## **Professional Experience**

#### Sella India Software Services Pvt Ltd, Chennai, India

August 2022 - July 2023

#### **Full Stack Developer, Trainee**

- Underwent an extensive organization-wide training program that encompassed a broad range of cutting-edge technologies and tools.
- Conceived and built single-page applications from the ground up, leveraging React, React-Router, and React-Redux to deliver seamless user experiences
- Utilized Maven for dependency management, implemented log4j for logging, and contributed to code reviews and performance improvements.
- Successfully completed OutSystems' guided path, showcasing proficiency in their platform and methodologies
- Created and deployed 5+ diverse applications using OutSystems low-code platform, seamlessly integrated with JavaScript for enhanced functionality and user experience.
- Engaged in 100+ daily standup meetings, collaborating with senior developers for task assignments and mentoring.
- As a valued member of the IT Risk Management team, I actively contributed to strategic goals and risk mitigation.

## **Projects**

- Created a Snake Game using HTML, CSS, and JavaScript, demonstrating strong front-end web development skills.
- Designed and developed a compact weather application using React, showcasing proficiency in modern web application development.
- Engineered a comprehensive multi-page website for space tourism utilizing React, exemplifying expertise in advanced web development and user interface design.
